Brampton, Ontario L7A 1E8

The changes...

The Ontario Energy Board (OEB), responsible for regulating the distribution rates of utilities across the Province, has given approval to Hydro One Brampton Networks Inc. ("Hydro One Brampton") for an adjustment to our distribution rates. The distribution rate changes will affect the "Delivery" line of your electrici-

city bill, effective May 1, 2008, which covers Hydro One Brampton's costs to deliver electricity to homes and businesses in Brampton.

These adjustments to Hydro One Brampton's distribution rates impact the monthly service and volumetric charges.

Your new distribution rates are as follows:

General Service - less than 50 kW - the monthly service charge will decrease from \$21.40 to \$21.20 and the distribution volumetric rate will decrease from \$0.0196 to \$0.0181 per kilowatt-hour.

General Service - greater than 50 kW - the monthly service charge will decrease from \$105.14 to \$104.02 and the distribution volumetric rate will decrease from \$2.6448 to \$2.3333 per kilowatt.

General Service - 700 kW to 4999 kW - the monthly service charge will decrease from \$1,451.43 to \$1,435.50 and the distribution volumetric rate will decrease from \$4.1429 to \$3.8003 per kilowatt.

Large Use - greater than 5000 kW - the monthly service charge will decrease from \$4,858.22 to \$4,804.82 and the distribution volumetric rate will decrease from \$3.3527 to \$2.9526 per kilowatt.
